https://github.com/Vaishnavi4894

## OBJECTIVE

Aspiring data analyst skilled in SQL, Excel, Python, Power BI, and Tableau. Passionate about transforming data into actionable insights using data visualization, statistical analysis, and data storytelling to support informed business decisions.

## INTERNSHIPS

- **Data VisualiZation Intern:** Saiket Systems

  Worked on data visualization projects, demonstrating strong analytical skills, attention to detail, and effective communication while delivering insightful visual reports

## EDUCATION

- **Avn Institute of Engineering and technology** 2022 –2026 — 2026
  *B.Tech in Computer Science and Engineering (AI & ML)* — *CGPA:8.05*
- **Alphores Junior College, karmingar** 2020 –2022 — 2022
  *Intermediate* — *Percentage: 84%*
- **Alphores High School Sulthanbad** 2019 – — 2020
  *SSC* — *Percentage: 90%*

## SKILLS

- **Programming:** C, Python,
- **Core Areas:** Data Analysis, Data Visualization (Tableau, Power BI), Machine Learning, Artificial Intelligence, Advanced Python Libraries (e.g., Pandas, NumPy, Scikit-learn), Dashboard Development, Statistical Analysis
- **Tools and Technologies:** Excel, Jupyter Notebook, Google Sheets, GitHub
- **Databases:** MySQL

**Non-Technical Skills :**

- Problem Solving, Business and Entrepreneurship, Communication, Leadership

## PROJECTS

- **In built tracker phone using Ai**: An AI-powered inbuilt mobile app that automatically tracks construction/build progress using photos, sensor/GPS data and schedule inputs to detect delays, quality issues, and generate real-time status reports.
- **Speech Emotion-Aware Adaptive Study Companion** – Built an AI system that analyzes students' emotions from voice signals and personalizes learning recommendations using ML-based speech emotion recognition.
- **Number guessing game**: Generates a random number to guess and gives hints until the user guesses right
- **Credit Card Fraud Detection (ML)** : Implemented a classification model to detect fraudulent transactions using imbalanced financial data.

## CERTIFICATIONS

- Data Analytics job simulation
- Gen AI Data Analytics and Ai tools workshop
- TCS iON Career Edge – Young Professional
- Natural Language processing and Text mining tutorial for Begineers

## INTERESTS

- Artificial Intelligence and Machine Learning
- Data Analytics and Visualization
- Data Science

## LANGUAGES

- English, Hindi, Telugu
